This year God laid it on our hearts as a group of pastors working in the Brong /Ahafo region to open a vernacular Bible school call,

The Great Commission Train Center.

In many of our village churches we have men who believe they are called of God to become pastors but do not have the required educational level to qualify to enroll in the English Bible school. This

new Bible school will enable us to train many men for the ministry who have not completed formal English education. These men will be taught to read and write the Twi language fluently and be trained as pastors in their native tongue.
